

# PANDEMIC PUSHER\$ AND PROFITEER\$

## A Disturbing Prediction

On **June 17, 1996**, the U.S. Air Force released '**Air Force 2025**'. In the unclassified study, The College of Aerospace Doctrine, Research and Education put forth several "fictional representations of future scenarios." In Chapter five, the authors present a timeline representing a plausible history in which in 2009 influenza will kill 30,000,000 people **"and it is not determined if the virus was a natural mutation or bioengineered. Many feared the latter."**

'Science Digest' April, 1951

"And advanced forms of biological warfare that can trigger specific 'genotypes' can transform biological warfare from the realm of terror into a politically useful tool." **Project for a New American Century, (PNAC) 'Rebuilding America's Defenses', 9/ 2000**

## What Constitutes a 'Pandemic'?

"There's something noteworthy about the fact that the WHO has **changed** its definition of a pandemic. The old definition was a new virus which went around quickly for which you didn't have immunity and which created a high morbidity and mortality rate. Now, the last two have been dropped, and that's how swine flu has been categorized as a pandemic...There are over 200 viruses that can produce flu-like illness." **Dr. Tom Jefferson, Epidemiologist in interview with Der Speigel, 7/21/09**

"The group (WHO) will recommend that nations move away from confirming (H1N1) flu cases and just **assume** the virus is the culprit." **Thomas H. Maugh II, Los Angeles Times, 7/8/09**

## H1N1: Swine Flu or Human-Avian-Swine Flu?

"The virus continues to be an enigma to virologists. In the April 30, 2009 issue of 'Nature', a virologist was quoted as saying, 'Where the hell it go all these genes from we don't know.' Extensive analysis of the virus found that it contained the original 1918 H1N1 flu virus, the avian flu virus and two new H3N2 virus genes from Eurasia. Debate continues over the possibility that the swine flu is a genetically engineered kind of virus." **R. Blaylock MD, Neurosurgeon, 'Vaccine May Be More Dangerous Than Swine Flu', 7/17/09**

"This is a very unusual kind of flu. It looks like it's the product of gene splicing. The flu contains elements of the bird flu, two forms of human flu and various forms of swine flu." **Wayne Madsen, Investigative Journalist, Washington D.C.**

"The new type A H1N1 influenza virus is unlike any that had been previously isolated judging from the first data released... It is a messy combination of sequences from bird, human and swine flu lineages from North America and Eurasia. A senior virologist in Canberra, Australia told the press he thought that the virus could have been created in the laboratory..." **'Fast-tracked Swine Flu Vaccine Under Fire', 8/09, Dr. Mae-Wan Ho, Geneticist and Biophysicist, Director, Institute of Science in Society, London, England and Dr. Joe Cummins, Professor Emeritus of Genetics, University of Western Ontario**

"It's obvious that all these 'emerging viruses' are emerging from laboratories...There are over 1088 bio-warfare laboratories just in the United States alone. Any thinking person should be asking themselves how a bird from Asia can fly over the sea." **Rebecca Carley MD, Surgeon, [www.dynamichealthradio.info](http://www.dynamichealthradio.info) 5/13/09**

## Experiments In and Out of the Laboratory

"In 1997, in the U.S. Armed Forces lab, Dr. Taubenberger discovered lung tissue from a 1918 flu victim... For the past six years, Taubenberger has worked to map the virus' genetic code... He even introduced the 1918 flu's genes into a present-day live virus and injected the modified strain into lung tissue cells." **PBS, Preview of 'Killer Flu'**

"It emerged that a virulent H5N1 bird flu was sent out by accident...as well as the risk of escaping into wild, the H5N1 got mixed with a human strain which might have spawned a hybrid that could unleash a pandemic." **Times of India, 3/6/09**

"Baxter International released a seasonal flu vaccine containing the bird flu virus to 18 countries...An astute lab worker in the Czech Republic discovered the deadly virus and blew the whistle before a worldwide disaster was unleashed." **Russell Blaylock MD, Neurosurgeon 7/17/09 (Baxter adhered to Bio-Safety Level 3 making contamination of 72 kilograms of vaccine near impossible)**

"Baxter files swine flu vaccine patent [US20090060950A1](http://US20090060950A1) 8/28/2008 a year ahead of the outbreak." **[www.legitgov.org](http://www.legitgov.org) 7/17/09**

"A number of homeless people in Poland died following medical trials for a vaccine (by Novartis) to the H5N1 bird flu virus... Authorities claim that the alleged victims received twelve British pounds to be tested with what they thought was a conventional flu vaccine, but according to investigators was actually an anti-bird flu drug." **Matthew Day, London Telegraph, 7/2/08**

"Novartis applied for a patent on [Nov. 4, 2005](http://Nov. 4, 2005) & the U.S. Patent Office accepted this application & granted [US20090047353A1](http://US20090047353A1) for a 'Split influenza Vaccine with Adjuvants' on Feb. 19, 2009." **True Ott PhD, 'Startling Evidence Swine Flu Pandemic is Man-made, 7/26/09**

"Ways were sought to **shorten the time** between the emergence of a pandemic virus and the availability of effective vaccines... In Europe some manufacturers have conducted **advance** studies using a so-called 'mock-up vaccine'. Mock-up vaccines contain an active ingredient for an influenza virus that has not circulated recently in human populations and this mimics the novelty of a pandemic virus." **World Health Organization Website, Pandemic (H1N1) 2009 briefing note 6; 8/6/09**

"The Centers for Disease Control (CDC) will soon launch experiments designed to combine the H5N1 virus and human flu viruses and then see how the resulting hybrids affect animals." **Center for Infectious Disease Research & Policy, 1/14/04**

"Indonesia's Health Minister has implicated the U.S. government in an international conspiracy to develop the bird flu virus into a deadly biological weapon... Dr. Supari expressed alarm at World Health Organization laboratories sharing bird flu virus data with the United States National Laboratory in New Mexico where nuclear weapons are developed." **Jeff Thompson, abc.net/au, 2/20/08**

"An inventory of potentially deadly pathogens at Fort Detrick's infectious disease laboratory found that more than 9,000 vials that had not been accounted for." **Nelson Hernandez, Washington Post Staff Writer, 6/18/09**

"This is the worst cover-up in the history of the military. It's not the shot from the gun but a shot from a syringe that is leaving some servicemen and women on the brink of death." **'Secret Shots' Target 5 WLWY TV Investigative Report**

### ***Pandemics = Profit\$***

"Critics point out that the 'vaccination experts' are dominated by the vaccine makers standing to gain from the enormously lucrative vaccine and antiviral contracts awarded by governments." **'Fast-Tracked Swine Flu Vaccine Under Fire', August 2009 Dr. Joe Cummins, Professor Emeritus, University of Western Ontario and Dr. Mae-Wan Ho, Geneticist, London, England**

"It is obvious that vaccine manufacturers stand to make billions of dollars in profits from this WHO/government promoted pandemic. **'Vaccine May be Deadlier than the Swine Flu', Russell Blaylock MD, Neurosurgeon 7/7/09**

"Sometimes you get the feeling that there is a whole industry almost **waiting** for a pandemic to occur. The WHO and the public health officials, virologists and the pharmaceutical companies have built this machine around the coming pandemic, and there's a lot of money involved. And all it took was for one of these viruses to mutate to start the machine grinding." **Dr. Tom Jefferson, Epidemiologist, in interview with Der Spiegel, 7/21/09**

"KPCB began a new investment initiative with \$200,000,000. We have built a global network of hundreds of key scientists, policymakers, government officials, foundations...executives and entrepreneurs...Engineering new markets, we invest in early-stage and breakthrough ventures that have the promise to create new market opportunities" **KPCB 'Initiatives: Pandemic and Bio-defense' (website info) Shares of the two public companies in the firm's portfolio of Pandemic and Bio-Defense companies jumped on news that the swine flu killed a reported 60 people in Mexico..." 'Venture Capital Firm Set to Reap Rewards on Swine Flu', A. Haislip, Reuters, 4/24/09**

"The prospect of a bird flu outbreak may be panicking people around the globe but it's providing to be very good news for Defense Secretary Donald Rumsfeld and other politically connected investors in Gilead Sciences, the California company that owns the rights to Tamiflu. (*Manufactured and marketed by Roche, Gilead receives a royalty*) Rumsfeld served as Gilead chairman from 1997 until he joined the Bush administration in 2001, and he still holds a Gilead stake valued at between \$5,000,000 - \$25,000,000 according to financial disclosures filed by Rumsfeld... Rumsfeld isn't the only heavy weight benefitting from Tamiflu." **Nelson D. Schwartz, Fortune Magazine, 10/05 (Rumsfeld still has profitable connections to Tamiflu)**

"Always ask your self who benefits...big pharma." **Dr. Rauni Kilde, Retired, Chief Medical Officer, Finland**

"A bill called The Flu Prevention Act which is now winding its way through Congress aimed at preventing so-called vaccine shortages and financial losses like the \$120 million hit taken by flu manufacturers the year before when vaccine rates stagnated – gives tax breaks to flu manufacturers and guarantees the government will buy up unused doses of flu vaccine... It also mandates that the CDC conduct an annual campaign to increase flu vaccination... which amounts to hundreds of millions of dollars in subsidies for an industry already making double digit profits." **'The Grand Flu Scam of 2003', Tara Servatius**

"The objective of Global Vaccine Advancement Program is to increase the supply of a pandemic vaccine...The first approach relies on countries establishing clear immunization policies to increase the use of seasonal flu vaccine...This will provide the vaccine industry with a solid forecast and stimulate its increase production capacity..." **'Immunizations, Vaccines and Biologicals Epidemic and Pandemic Alert Response', W.H.O. 9/06**

"The Centers for Disease Control with the collusion of the media constantly tell us that 36,000 people die from the flu each year, a figure that has been shown to be a lie." **'Vaccine May Be More Dangerous than Swine Flu' Russell Blaylock, MD, Neurosurgeon**

"The CDC was assuring everyone that the vaccine (*swine flu 1976*) was perfectly safe... 'Just like water'... You know the disaster that followed, after a thousand cases of paralysis were reported." **Thomas E. Stone MD, 'Open Letter to Pediatricians on the Flu Vaccine'**

"There were seven times more disease among the vaccinated soldiers than the unvaccinated civilians and the diseases were those they'd been vaccinated against." **Eleanor Mc Bean PhD, 'I was an on the spot observer of the 1918 flu epidemic', Author of 'The Poisoned Needle'**
